1

REALTOR LOCATOR

Each country has its own laws and processes.

We have realtors all across Canada, South Africa, UK, USA and parts of Australia.

Our realtors assist with the purchase and sale of real estate in all our locations.

Our locally qualified professionals assist with each part of the process.

An example, in Canada, realtors do not work with rentals, except in Ontario.

A separate license is required to work with clients leasing/renting.

In Canada, we assist in locating available options for you to connect directly with the landlord or property management company. In Ontario we operate like we do throughout the USA, by connecting you with a local realtor working in your area.

They will assist you with a lease or purchase as a new resident to completion.

In the UK, we work with letting agents, landlords and property management companies to assist you with your new resident lease/rentals.
